

Dear Timber Buyer:

Attached, is the bid prospectus for the November 4, 2021 Clark County Forest Timber Sale Bid Opening. The prospectus will also be posted online on the Clark County Forestry & Parks Dept. website: (www.clarkcountywi.com/copy-of-for-c-forest-timber-sale-re). Offers will be taken by sealed bids on each tract **until 11:00 a.m., Thursday, November 4, 2021**. No late bids will be accepted, and bidders are welcome to attend (see guidelines below). Bids will be opened at 11:00 a.m. **in the auditorium (room 101) at the Clark County Courthouse, 517 Court Street Neillsville, WI**. The auditorium is located on the 1st floor, at the northwest entrance to the Courthouse. The Forestry and Parks Committee will award all contracts on Tuesday, November 9, 2021. Sealed bids for tracts not sold on the November 4, 2021 bid opening will be received and opened at 11:00 a.m. December 9, 2021 in the Forestry & Parks Department office (room 103) at the Clark County Courthouse. A list of unsold tracts will be available on request from the Clark County Forest and Parks Department. Tracts not sold following the December bid opening are available for direct purchase at 10% above minimum bid value unless otherwise agreed upon by the Forestry & Parks Department as per department policy.

FOREST CERTIFICATION

The area encompassed by these timber sales, **EXCEPT part of Tract #42-21**, is certified to the standards of the Forest Stewardship Council® (FSC® C006090) FSC 100%.

REMINDERS & NOTIFICATIONS FOR PROSPECTIVE BIDDERS

The prospectus page doubles as the bid sheet. There are spaces provided next to each product to enter bid values and the page can be submitted with your 10% bid bond.

IMPORTANT NOTICE – The Clark County Courthouse has implemented single point entry and security screening procedures for anyone entering the facility. The secured entrance **AND** exit will be located at the Northwest first floor doors at the Courthouse along 6th Street. An entrance and exit for the handicapped and disabled only will be available at the South fifth floor doors at the Courthouse along 5th Street. The public will be allowed access using these entrances Monday – Friday from 7:30 AM to 4:30 PM. Weapons such as firearms and knives are strictly prohibited. Contact the Department for details.

Important – Part of Tract #42-21 **IS NOT** third party certified. Normal Clark County timber sale contract, payment, scaling, extension, and administrative policy will apply.

New this year – Clark County timber sale contracts will have a starting date of April 1st for oak wilt harvesting restrictions beginning in 2021 and moving forward. Contact the Department for details.

New this year – Pine bolts will be advertised on a number of tracts this year. The definition for pine bolts was added to the Clark County timber sale contract. Contact the Department for details.

New this year – A definition for excessive damage to individual trees and/or timber stands was added to the Clark County timber sale contract. Contact the Department for details.

New this year – Requests for scaling must be made at least 24 hours in advance was added to the Clark County timber sale contract. Contact the Department for details.

Due to the ongoing COVID-19 risk, visitors to the Clark County Courthouse are asked to observe social distancing guidelines and wearing a mask is recommended while in the courthouse.

The bid opening will be available via webinar at the following web address:
www.clarkcountywi.com/copy-of-for-c-forest-timber-sale-fo-1.

BIDDING INSTRUCTIONS

All pulpwood, bolts and co-mingled products will be bid by the ton to 4 inch top diameter. No cord bids will be accepted for these products. If you wish to whole tree chip or harvest fuelrods, see page 3 for the Clark County utilization allowance. Sawlogs will be bid by the thousand board feet (MBF).

The Scribner Decimal C Log Rule shall be used for scaling hardwood sawlogs. The Scribner Decimal C Log Rule or cord scaling (converted to MBF using 2.44 cords/MBF) may be used for scaling pine sawlogs. Locked box ticket system or on-site cord scaling (converted to tons) or a combination thereof may be used for pulp, bolt, or co-mingled material as determined by Clark County. Cord scaled products will be converted to tons using the weights published in the WDNR Timber Sale Handbook except for mixed hardwood pulp and bolts. The Clark County Forest mixed hardwood weight conversion is 4,600 lbs/cd.

Surety Bonds – Specific requirements must be met to qualify as an acceptable form of performance bond. Call the Clark County Forestry and Parks Department for details.

The prospectus/map page is the timber sale bid form. There are blank spaces next to each product to enter bids. Fill out prospectus page accordingly, make photo copies for your own records, and submit. A standard, blank, bid form is also included if needed. All bids must be in a sealed envelope plainly marked as follows: TIMBER SALE BID, TRACT #_____. A money order, certified/personal check payable to CLARK COUNTY TREASURER, or cash for a sum not less than 10% of the total bid must accompany such bid. One money order or check may be written to cover the combined bid bond amounts for all bids submitted. If one check is submitted for multiple tracts, put the check in the envelope of the lowest tract number being submitted. If the bid is accepted, the 10% down payment is held until the performance bond requirement is satisfied and a contract is signed. Failure to provide an acceptable bond within 30 days of the contract being awarded may result in forfeiture of the bid bond and resale of the tract.

Bids will be awarded to the highest responsible bidder that is in Clark County's best interest who meets specifications, on a site by site basis. Determination of the highest responsible bidder will be based upon the total bid value and the following criteria as required by the County to verify bidder qualifications to complete the work:

- Adherence to all conditions and requirements of the bid specifications.
- General reputation, prior performance, and experience of the bidder.
- The County's evaluation of the bidder's ability to perform based upon the requirements and references called for in the bid documents.
- Financial responsibility of the bidder.
- Experience of the bidder with this type of project.

All bids must be broken down for each product/volume listed on the tract prospectus and meet or exceed the total minimum bid price listed on page 6. Only **Scaled** sale bids must meet or exceed the minimum sawlog bid prices listed below. **Scaled** sale bids that fail to meet these minimums may be rejected. For **scaled** sale bids, you may bid the same price, **but not less**, for boltwood material as you do for pulp. If you bid different prices for boltwood vs. pulp, you will be required to sort bolts per specifications on the landing.

Scaled sales minimum sawlog bid prices:

Red Oak Sawlogs	\$ 270.00/MBF	White Oak Sawlogs	\$ 170.00/MBF
Black Oak Sawlogs	120.00/MBF	Oak Sawlogs	120.00/MBF
Red Maple Sawlogs	130.00/MBF	Ash Sawlogs	130.00/MBF
Basswood Sawlogs	130.00 /MBF	Mixed Hardwood Sawlogs	130.00/MBF
White Pine Sawlogs	120.00/MBF	Pine Sawlogs	120.00/MBF
Red Pine Sawlogs	120.00 /MBF		

Lump Sum Timber Sale: Tract #33-21 - The actual volumes removed may be different than the advertised volumes. Bids still need to be broken down for each product description listed on the tract prospectus. No adjustments to the purchase price or harvest volumes will be made if the harvested volumes differ from estimated volumes. All stumpage will be paid in advance of harvest or arrangements made with the seller prior to harvest for an advanced payment schedule. Minimum sawlog prices do not apply for lump sum timber sales. There are no bidding requirements that apply to boltwood and pulpwood material for lump sum timber sales. During the bid opening, only the total bid value for the tract will be read aloud.

Seasonal Oak Wilt restrictions will be enforced on all or portions of tracts #45-19, 49-20, 12-21, 27-21, 32-21, 33-21, 37-21, 39-21, 41-21, 42-21, 43-21, 45-21, 47-21, & 49-21. No cutting, skidding, or road building will be allowed between April 1st and July 15th annually. The starting date for oak wilt restrictions may vary depending on weather conditions.

Heterobasidion root disease (HRD & formerly known as annosum root rot) control work is required on all or portions of tracts #39-19, 48-19, 35-20, 41-20, 19-21, 28-21, 31-21, 35-21, 36-21, & 44-21. Purchaser shall conduct HRD disease control work. Purchaser shall apply Cellu-Treat fungicide to all conifer stumps within 24 hours of tree cutting. Purchaser shall apply Cellu-Treat according to product label directions. Seller will provide the Cellu-Treat and dye. Seller may provide the purchaser with a backpack sprayer if needed and available. Application of Cellu-Treat is not required for harvest operations conducted at temperatures below 32 degrees. It is the responsibility of the contractor to obtain any state licenses or certifications necessary for contractual pesticide applications on Clark County property.

Possible Summer Sales - The following sales are advertised as “possible” summer sales: **Tracts #41-20, 49-20, 12-21, 28-21, 31-21, 32-21, 34-21, 36-21, 37-21, 39-21, 44-21, & 45-21.** These sales may have inclusions that require very dry or frozen conditions to operate. Other tracts, not listed above, may have areas that are operable in the summer. This list is included as a reference tool only and no guarantees are implied. Prior to bidding, contractors are strongly encouraged to visit and inspect all tracts they intend to bid on.

Policy for overdue stumpage.

- The grace period for stumpage due is 30 days. After 30 days, 18% annual interest rate compounded monthly (1.5%/month) will be applied until the balance is paid in full.
- Interest will not be applied to balances of \$200.00 or less, unless it is a closing contract balance.
- Advance stumpage payment will still be required to purchase haul tickets.

Utilization Allowance for Whole Tree Chippers and Fuelrod Harvesters: The utilization allowance is an adjustment in pulpwood and boltwood stumpage rates to compensate the logger for higher utilization rates. The utilization allowance is calculated as follows:

$$\frac{\text{Total Combined Bid Value of Pulpwood and Boltwood}}{\text{Estimated Pulpwood and Boltwood Volume X Adjustment Factor}} = \text{Adjusted Price/Ton}$$

The adjustment factor for whole tree utilization is 1.30. The fuelrod adjustment factor is 1.10.

Purchaser must meet the utilization specifications listed on page 5 to receive the whole tree and fuelrod utilization allowance. Sawlog volume will not receive a utilization allowance and may only be chipped with authorization from the seller.

Peeled Cordwood: All volumes are based on unpeeled stick scale measure. Unless otherwise specified – a cord is 4’ x 4’ x 100”. When peeled cordwood is measured, it is agreed that 12.5% will be added to hand peeled and roller or stroke head processor peeled volumes. Ring debarker and other machine peeled volume adjustment will be handled on a case-by-case basis.

Use of restricted ATV trails, snowmobile trails, game trails and other trails or roads on the County Forest:

- Logging contractors in possession of this prospectus are authorized to travel restricted ATV and snowmobile trails with a car or truck for the purpose of timber sale investigation only.
- Logging contractors in possession of this prospectus are authorized to travel other restricted trails, woods roads or county land with an ATV for the purpose of timber sale investigation only.
- Nothing in the above paragraphs allows anyone to operate a motor vehicle in such a manner as to cause ruts, soil disturbance, other damage, or cross private property without the owner’s consent.
- Gates will be open from October 29th through November 3rd for the following sales:
Tracts #45-19 (north & west), 48-19, 15-20, 30-21, 33-21, 34-21, 38-21, 41-21, 44-21, and 48-21.

Workers Compensation insurance will be required. A current “Certificate of Insurance” must be provided before any work begins.

Bids should be made with an as-is understanding. If there is no access road to a job, it is the purchaser’s responsibility to create access unless specified with a contingency. In some cases, navigable streams may be involved. The County will acquire stream-crossing permits from the DNR. Purchaser will reimburse Clark County for any waterway required permit fees. The purchaser is responsible for providing, installing, and removing permitted structures such as culverts or timber bridges. The purchaser is responsible for restoring all stream crossings and/or wetland crossings to presale conditions. Clark County has timber mats that may be used to cross small streams, wetlands, or wet soils available upon request (DNR permit is required to cross streams with mats in most cases).

Contract Expiration: for most timber sales is November 1, 2023 (2 year contracts).

3 year contracts – Tracts 20-20, 14-21, 20-21, 24-21, 37-21, 38-21, 45-21, & 48-21

NO extensions will be granted – Tracts 43-21, 47-21, & 49-21 (Shelterwood harvest areas only)

Contract extensions will be considered for all other tracts with the following conditions:

- 1st 1 year extension – 5% increase in stumpage rate
- 2nd 1 year extension – 10% increase in stumpage rate over and above first extension
- 3rd 1 year extension (and beyond) – 15% increase in stumpage rate over and above previous extension or as determined by the Forestry and Parks Committee.

A performance bond is required for each tract. Bond amount for Tracts 28-21, 47-21, & 49-21 will be \$20,000. Bond amounts for all other tracts will be equal to 25% of the total bid value up to \$15,000.00, except no bond will be less than \$3,000.00.

Wisconsin Resale Policy: As required by the Wisconsin Department of Revenue, we must keep a Wisconsin Resale Certificate signed by the purchaser on file or collect tax from the purchaser's stumpage payments. This form certifies the purchaser as a wholesaler and the end consumer will pay the sales tax. Once signed, this certificate does not expire unless canceled by the purchaser or department. If a signed certificate is not already on file with the department the contractor will be notified with their contract award letter.

The scale for all timber sale maps is 4 inches = 1 mile or 1 square inch = 40 acres unless otherwise noted on the sale map.

CUTTING REQUIREMENTS

All designated hardwood thinning areas have the following cutting requirements and operational restrictions:

- Harvest all trees, regardless of merchantability, in accordance with the specifications listed on the tract description page and timber sale map.
- Care must be taken to avoid damaging residual trees.
- No cutting, skidding or road building between April 1 and July 15.
- Road building will be kept to a minimum and residual stems avoided, whenever possible.
- Tree and pole length skidding will be considered on a case by case basis.
- Harvesting and road construction within designated oak and hardwood thinning acreage will not be allowed during the period of two growing seasons before a significant gypsy moth outbreak is expected until two growing seasons following the collapse of gypsy moth populations. The Seller will provide written notification to the Purchaser restricting harvesting and road construction activities. This notification will be given by January 1st of each year for restrictions beginning the following April 1st. The seller will also provide written notification to the Purchaser, lifting the restriction after gypsy moth populations have crashed and trees have been given two growing seasons to recover.

All designated pine and spruce thinnings have the following cutting requirements and operational restrictions:

- Harvest all trees, regardless of merchantability, in accordance with specifications listed on the tract description page and timber sale map
- Care must be taken to avoid damaging residual trees.
- Tree and pole length skidding will be considered on a case by case basis.
- All cut pine and spruce products must be removed from the sale area within two weeks during the period of May 15 through August 15.
- Purchaser shall apply Cellu-Treat fungicide to all conifer stumps within 24 hours of tree cutting. Purchaser shall apply Cellu-Treat according to product label directions. Seller will provide the Cellu-Treat and dye. Seller may provide the purchaser with a backpack sprayer if needed and available. Application of Cellu-Treat is not required if the high temperature on the day of harvest is less than 32 degrees.

All designated regeneration harvests have the following cutting requirements and operational restrictions:

- Harvest all trees in accordance with specifications listed on the tract description page. Avoid damage to and no cutting of designated reserve trees, individually marked trees, or wildlife islands. Skidding through wildlife islands is only allowed with prior approval of the seller.
- All remaining live trees, 2 inches in diameter at DBH and larger shall be cut, unless otherwise specified on the timber sale map or tract description page.
- Non-merchantable tree stumps shall be no higher than 6 inches.
- To insure and protect aspen regeneration, all trees designated for harvest must be removed with the aspen.

UTILIZATION SPECIFICATIONS

All trees containing one or more 100 inch sticks or 8 foot 6 inch logs, 50% or more merchantable, to the minimum top diameter are considered merchantable.

Whole Tree: No minimum top diameter. Includes all bark and limbs.

Fuelrods: Minimum top diameter will be 2 inches Diameter Outside Bark (DOB) for all species.

Pulpwood: Minimum top diameter will be 4 inches DOB for all species.

Bolts: Minimum top diameter will be 8 inches Diameter Inside Bark (DIB) for all species with the exception of random length conifer (see paragraph 41(G) of the Clark County timber sale contract).

Sawlogs: Minimum top diameter will be 10 inches DIB for hardwoods and 9 inches DIB for conifer. Exception for random length conifer less than 9 inches DIB (see paragraph 41(H) of the Clark County timber sale contract)

Co-mingled: When listed on the prospectus, refers to all pulp, bolt, and sawlog volume being combined and sold for one bid price.

If you have any questions about submitting a bid, our timber sale contract, or the timber sale prospectus please contact: John Wendorski at 715-743-8609, Clark County Forestry and Parks Department, Neillsville, WI. Good Luck.

Special Conditions:

1. All cut pine and spruce products must be removed from the sale area within two weeks during the period of May 15 through August 15.
2. 1st thinning of a natural stand & 5th thinning of a plantation.
3. New roads, landings, and turn around locations and design must be approved by the County prior to construction.
4. No slash will be allowed on or within 20' of the motorcycle trail. All slash within 100' of the motorcycle trail shall be lopped to within 2' of the ground.
5. Location of the motorcycle trail in the sale area is indicated by trees marked with 2 rings of fluorescent green paint adjacent to the trail. These trees shall be cut if designated in the contract specs.
6. All slash must be removed from the motorcycle trail.
7. Minimize the number of crossings to recreational trail.
8. Portions of sale are wet and may require dry or winter (frozen ground) logging.
9. Avoid damage to residual trees.
10. Sale bound by younger timber types and town road
11. HRD (Annosum Root Rot) treatment is waived for this sale.

Management Objective:

Pine Thinning Units: Reduce stocking to recommended levels and remove hardwood competition.

Special Conditions:

1. No cutting, skidding, or road building between April 1 and July 15 due to oak wilt concerns.
2. The quality of the oak sawlog volume on this sale is good.
3. The sawlog volume estimates are based upon 100% cruise using Scribner volume tables, to a minimum 10" top for hardwoods and 9" top for conifers. 476 sawlog sized trees have been scaled for random length cutting, with allowance made for defect. Pulpwood and bolt volume estimates are based upon a 100% stick tally using an average of 17 bolts/cord and 30 pulp sticks per cord. The following topwood allowance factors were used on the sawtimber trees: **Oak** 4.125 tons of pulp/MBF and 2.0625 tons of bolts/MBF. **Mixed Hardwood** 1.15 tons of pulp/MBF and 1.15 tons of bolts/MBF.
4. No tree and/or pole length skidding allowed and minimize damage to advanced oak regeneration and adjacent stands.
5. Portions of sale are wet and may require dry or winter (frozen ground) logging.
6. Sale units bounded by red paint lines and smaller recently cut timber.

Management Objective:

Regenerate oak and associated hardwoods. One island and 4 individually marked trees will be left uncut to benefit wildlife and aesthetics.

Choose method by which performance bond will be posted or secured. Please check (ü) one: _____ Cash/Check _____ Irrevocable Letter of Credit Deposit in the amount of \$ _____ enclosed. (Not less than 10% of total bid) Bidder's Name, Address & Phone Number _____ _____ _____ Bidder's Signature _____ Date _____				

Special Conditions:

- Performance bond for this sale will be \$20,000.**
- This timber sale contract will expire on the oak Shelterwood portions of the sale area on November 1, 2023. No extensions will be granted and if not completed by this date, contractor will lose all bond money. If the harvest is completed in these units by November 1, 2023, the remaining sale area will expire November 1, 2023 and the normal extension policy will be applied.**
- No cutting, skidding, or road building in the **shelterwood unit** between April 1 and July 15 due to oak wilt concerns.
- Snowmobile trail may be used for access providing contractor does not damage trail or impede its use.
- Portions of sale are wet and may require dry or winter (frozen ground) logging.
- Avoid damage to survey pipes located within the sale area.
- The quality of the Oak sawlog volume on this sale is good.
- Sale bound by red paint lines, woods roads, recent harvests, Division Avenue, and Ballard Road.

Management Objective:

Shelterwood Unit: Create conditions favorable for the establishment of oak regeneration in the shelterwood harvest units. The shelterwood harvest units were scarified (fall 2021) to encourage oak seedlings.

Regeneration Unit: Regenerate oak and associated hardwoods. 4 islands and 9 individually marked trees will be left uncut to benefit wildlife and aesthetics.
