

January 2024

Radon Newsletter

Radon Greetings

It is hard to believe that we are starting 2024, but we are and this also means it is National Radon Action Month. Here at the Clark County Health Department we are planning to do some radon promotion to help educate the public on Radon. This newsletter is to be a resource for any questions you have regarding radon.

Radon Test Kits

The only way to know if you have a safe level of radon inside your home is to conduct a radon test. Testing is simple, quick, and inexpensive. Short-term radon test kits provided by the Clark County Health Department are available for \$5.00 and can be picked up at the Health Department.

Welcome!

For those of you who are new, we want to introduce ourselves again and let you know what we can offer you as the Clark County Health Department. The first thing we do is provide information and answer any questions you have.

Paige Lindner and Dillon Brost are the two Environmental Health Specialists that are available to help answer your questions.

Dillon Brost

dillon.brost@co.clark.wi.us

Work Cell: (715) 937-7097

Office Phone: (715) 743-5116

Paige Lindner

paige.lindner@co.clark.wi.us

Work Cell: (715) 937-1121

Office Phone: (715) 743-5112

Radon Price Change

During 2024, the Clark County Health Department is offering reduced-priced short-term radon tests, utilizing COVID-19 American Rescue Plan Act (ARPA) grant dollars intended to support community recovery.

- The kits will be offered to test Clark County properties.
- The tests will be \$5 per kit if you pick them up from the department, or \$6 if you would like it shipped.
- Kits can be picked up at the Clark County Health Department or mailed.

Neillsville, WI 54456

January: Radon Action Month

January is Radon Action Month This is the month that we focus on getting information out to the public on testing their home for radon. We will be sending out a press release, articles in local publications, Facebook posts, and other outreach ideas in hopes of increasing radon testing and awareness. If you have ideas or need assistance in planning for Radon Action Month let us know. We are happy to assist or come up with some ideas for your county.

Radon Outreach

LowRadon.org

- This website provides a great overview of Radon. This includes testing, how to reduce radon, resources and more!

EPA Radon

- You will find basic radon information and all the handouts that go with test kits. There are also links for individuals and families, home buyers and sellers, and builders or contractors.
